

identifi Contract Complete

Contract Complete

Whether you're hiring inside or outside IR35, identifi's Contract Complete gives you no risk, hassle-free solutions that guarantee peace of mind, value for money and compliance with HMRC.

Outside IR35

Outside IR35

If you want to hire outside of IR35, you need to be able to prove that your contract role doesn't qualify as 'Disguised Employment'. This requires detailed documentation and confidence in your compliance. With **Outside IR35**, we can support you to ensure the process runs smoothly and ticks every legal box.

identifi Contract Complete

► The service

identifi helps you to produce all of the necessary paperwork, including the essential Status Determination Statement. We can carry out specialist IR35 audits on your roles, create detailed project outlines, and plan accurate timeframes. We engage contractors via their own limited business, registered with Companies House in the UK, and ensure Professional Indemnity, Public and Employers Liability insurance is in place. The contractors' business will be responsible for determining how and where the work is delivered.

► The benefits

A robust Status Determination Statement demonstrates 'reasonable care' in determining the employment status of your contractors, and reduces the chances of a legal challenge or the likelihood of a future HMRC payment. You can engage with a fully insured, subject matter expert who you can trust to take control of project delivery, while still retaining oversight of the outputs at every stage. KPIs and key review points can be outlined in the contract, ensuring measurable success and management of any shortfalls. Contractors are fully responsible for repairing or repeating work that does not meet your organisation's standards.

Outsource the headache of off-payroll administration to identifi Global and reduce your organisation's risk of non-compliance.

► Glossary

IR35:

Legislation designed to target tax avoidance by both contractors and the organisations that employ them. Also known as the 'off-payroll working rules'.

Inside IR35:

To be 'inside IR35', a contractor is considered, for tax purposes, to be an employee of the end client and thus subject to PAYE.

Outside IR35:

A contractor is deemed to operate a genuine business and does not work in the same way as an employee (e.g. they have their own business premises, employ other workers or work for a wide range of clients) and therefore operate outside of IR35 rules.

Business PI Insurance:

Personal Indemnity Insurance is a type of insurance that covers your business in the event that a client claims to have suffered a loss as a result of your professional negligence or mistake.

Business PL Insurance:

Public Liability Insurance is a type of insurance that covers your business in the event that a member of the public claims to have suffered a loss as a result of your professional negligence or mistake.

Disguised Employment:

A contractor, who would typically be classed as an employee, working for a company through an intermediary.

NIC:

National Insurance Contribution. Tax on your earnings that goes into the National Insurance Fund which pays for various benefits and the state pension. Mandatory so long as you meet certain criteria.

PAYE:

Pay As You Earn. HM Revenue and Customs' (HMRC) system to collect Income Tax and National Insurance from employment.

Project Assurance:

Weekly meetings with the contractor to discuss progress and challenges, measuring outcomes against deliverables. Issues are highlighted and addressed to ensure timelines are being met.

Status Determination Statement:

A comprehensive statement from the client which declares a contractor's deemed employment status following an IR35 assessment.
