

Issured and Identifi Global Group Framework Credentials

This document provides a list of all frameworks which Issured and Identifi Global are on.

There are a number of direct award frameworks and a number of frameworks through our partners.

Our partners are CGI, Capita and Softcat for the UK and Carahsoft, Dutch Ridge and CPI for the US.

When speaking with potential customers, these are the routes to market open for us.

Where possible, we should always look to use a direct award framework first before a partner framework.

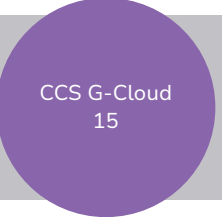

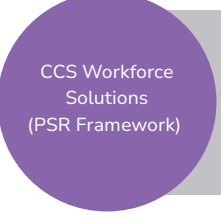

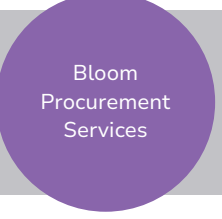

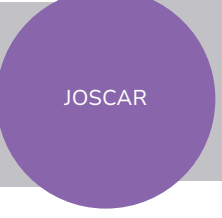

Please contact **Amanat** for Issured framework details and **Gary** for Identifi Global framework details.

Direct Frameworks - Issured

The Kent and Northamptonshire frameworks are generic and can be used by any organisation to contract directly.
